

Mirae Asset Global Investments

GLOBAL BUSINESS UNIT

ETF Database User Guide

A practical guide to the ETF product management platform for global offices

What is the ETF Database?

The ETF Database is the firm's single platform for managing Mirae Asset ETF product data across the full lifecycle — from development through listing and ongoing maintenance. It is organized into **four menus**:

1 Product Pipeline

Upcoming ETFs registered by each office **prior to listing** — a consolidated forward view of launches across the firm.

Your role: register and maintain your office's upcoming products through to listing.

2 Product Database

The **official record** of all listed Mirae Asset ETFs — one consistent dataset used across the firm.

Your role: reference and export as needed. Records are maintained centrally by GBU.

3 Index License Fee

Index licensing terms and estimated annual costs for every product, in USD.

Your role: ensure your office's contracted fee terms are accurately reflected.

4 Change Log

A complete **audit record** of all changes — what was changed, by whom, and when.

For reference: track changes to your office's data — erroneous changes can be reverted directly from the log.

The lifecycle in one line: register in **Pipeline** → move to **Product Database** at listing → maintain fee terms in **Index License Fee** — with every step recorded in the **Change Log**.

Global X HK	Sample Thematic ETF	SMPL HK	Passive	-	-	2026-07-06

- 1

Filters — Narrow the list by Office, Active/Passive, or Index Provider.
- 2

Search — Look up any product by name or ticker.
- 3

+ New Product — Register a product scheduled for launch by your office.
- 4

Export CSV — Download the current view for use in Excel.
- 5

Product row — Select any row to open the product detail page.

ACCESS & PERMISSIONS

All offices' pipelines are visible for reference; create, edit, delete and transfer rights apply only to products owned by **your office**.

NEW PROCESS — UPDATE AS IT HAPPENS

The Pipeline replaces GBU's monthly data request. Please register new products and reflect changes directly **as they occur** — no need to wait for a monthly collection. Target dates drive the launch calendar and give GBU real-time visibility across all offices.

Add...

- 1

Product Committee — Marks internal committee approval. No supporting file is required.
- 2

Index Development — For passive products, the Index Methodology file must be attached. Completed automatically for active products.
- 3

Prospectus Filing — Completed by attaching the Prospectus file.
- 4

Regulator Approval — Marks receipt of regulatory approval. No supporting file is required.
- 5

Listed — Becomes available once steps 1–4 are complete.

SET ACTIVE/PASSIVE FIRST

Switching a product to Passive clears the Index Development step and any attached file. Select Active or Passive before uploading documents.

Attaching files to a launch step

- 1 **Open the step** — Selecting Index Development or Prospectus Filing opens this window.
- 2 **Add File** — Attach the latest version. Files are stored centrally and visible to your office and GBU.
- 3 **Automatic completion** — The step is marked complete when a file is attached, and cleared when the last file is removed.

FILE REQUIREMENTS

Passive products: the Index Methodology file is required for Index Development.
All products: the Prospectus file is required for Prospectus Filing.

Add..

- 1

Create Product — Select Create Product once the form is complete.
- 2

Confirmation window — Review the ticker and product name, then confirm.
- 3

Saved — The product appears in the Pipeline list, and the creation is recorded in the Change Log under your name.

NOTE

Enter the information available at the time of registration; all fields except Product Name and Target Listing Date can be completed later via Edit.

The product detail page

- 1 Edit** — Update any field, subject to the same validation rules as creation.
- 2 Delete** — Removes the product after confirmation. Deletions are recorded in the Change Log and can be reverted.
- 3 Move to Product DB** — Available once the Target Listing Date is today or earlier.

CONDITIONS TO MOVE

The button appears when the product belongs to **your office** and its **Target Listing Date is today or earlier**. Completing the move also requires **every field to be filled in** — Notes is the only optional field, and Index Info is not required for active ETFs. Any missing fields are listed on screen when the move is attempted.

AFTER THE MOVE

The product is transferred to the Product Database and removed from the Pipeline. From that point it is **view-only for office users** — field corrections are handled by GBU.

1 Full coverage — All offices' products, both listed (ACTV) and delisted (DLST, shown in red). Killer products are marked with an orange badge.

WHY READ-ONLY?

Product Database records feed firm-wide reporting and license fee calculations, so edits are centralized with GBU. Please direct corrections to GBU.

EXCEPTION

Your office's license fee terms remain **your responsibility**, maintained via the Index License Fee page (following slides).

- 1

Tabs — Summary shows aggregated totals; Key Indicators shows the full product-level table (slide 13).
- 2

Breakdown row — Select an office or index provider to drill down; the summary cards update to the selection.
- 3

Detail panel — Products of the selected office or provider, with fee terms, AUM and estimated fees.
- 4

Export CSV — Downloads your office's products with the editable fee columns.
- 5

Import CSV — Uploads the edited file; only your office's rows are applied.

DIVISION OF ROLES

Offices: maintain the four license fee terms for their products.

GBU: updates AUM centrally from the Daily Global ETF Report. Estimated fees are computed automatically.

Quarterly update — Export → Edit → Import

1

Export CSV

Download your office's products:
Office · Provider · Fund Name · Ticker · Category · Licensing Fee · Annual Min. · Fee Cap · Fixed Annual Fee

2

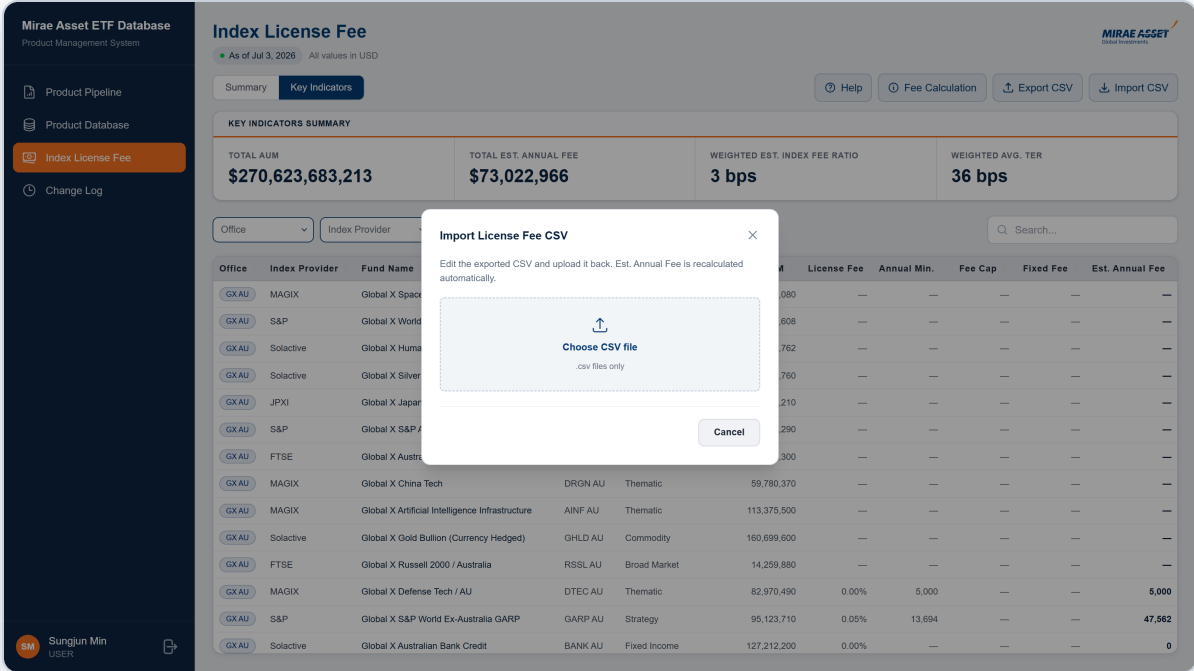

Edit in Excel

Update only the four fee columns.
All amounts must be in USD — if your contract is in another currency, convert at the **current exchange rate**. Licensing Fee as % (e.g. 0.05 = 0.05%). Leave other columns untouched.

3

Import CSV

Upload the saved file. Your office's rows update; a result banner confirms the count. Est. Annual Fee recalculates automatically.

SAFEGUARDS

Only **your office's products** can be updated — if the file contains rows for any other office, those rows are simply not applied. Changes to AUM or estimated fees are not applied either. Every update is recorded in the Change Log, and if an import fails, download a fresh export and try again.

Inside the export file — what to complete

The export is delivered as **License_Fee_Products_YYYY-MM-DD.csv** and opens directly in Excel. It contains only your office's products — below is an actual extract.

	A	B	C	D	E	F	G	H	I
1	Office	Index Provider	Fund Name	Ticker	Category	Licensing Fee	Annual Min.	Fee Cap	Fixed Annual Fee
2	GX HK	MAGIX	Global X US Treasury 3-5 Year	3450 HK	Fixed Income	0.0100%	12000	-	-
3	GX HK	FactSet	Global X Japan Global Leaders HKD	3150 HK	Thematic	0.0300%	15000	-	-
4	GX HK	Hang Seng	Global X HSCEI Covered Call Active	3416 HK	Income	0.0200%	6420	-	-
5	GX HK	Actively Managed	Global X Gold Covered Call Active	3533 HK	Income		-	-	-

REFERENCE COLUMNS (A – E)

Office · Index Provider · Fund Name · Ticker · Category — **do not modify**. Ticker is the key used to match each row to the database.

ENTRY FORMAT

Licensing Fee: percentage value — 0.05 means 0.05% (the % sign is optional).
Annual Min. / Fee Cap / Fixed Fee: plain **USD amounts only** — if the contract is in another currency, **convert to USD at the current exchange rate** before entering (\$ signs and thousand separators are accepted).
No value: leave blank or enter "-". Actively managed products carry no licensing fee.

EDITABLE COLUMNS (F – I)

Licensing Fee · Annual Min. · Fee Cap · Fixed Annual Fee — update these four wherever terms have changed.

BEFORE IMPORTING

Save the file in CSV format after editing. Do not rename columns.
This file updates existing products only — adding a row does not create a product (unknown tickers are reported as "not found"), and removing a row does not delete one. New products must be registered through the Product Pipeline.

How the Est. Annual Fee is calculated

Follow one actual product row — its four fee inputs flow through the formula to the estimated annual fee shown in the last column.

Office	Index Provider	Fund Name	Ticker	Category	AUM	License Fee	Annual Min.	Fee Cap	Fixed Fee	Est. Annual Fee
GX EU	Indxx	Global X Renewable Energy Producers UCITS	RNRG LN	Thematic	11,670,750	0.06%	12,000	24,000	7,000	19,000

STEP-BY-STEP · RNRG LN

1	Fee on AUM	$11,670,750 \times 0.06\%$	\$7,002
2	Apply the minimum	$\text{MAX}(\$7,002, \$12,000)$	\$12,000
3	Apply the cap	$\text{MIN}(\$12,000, \$24,000)$	\$12,000
4	Add the fixed fee	$\$12,000 + \$7,000$	

Est. Annual Fee **\$19,000**

— the value shown in the row above

READING THE FORMULA

$\text{MIN}(\text{MAX}(\text{AUM} \times \text{Fee\%}, \text{Min}), \text{Cap}) + \text{Fixed}$

Fee%	Licensing Fee — the annual rate
Min	Annual Min. — a floor the fee cannot go below
Cap	Fee Cap — a ceiling the fee cannot exceed
Fixed	Fixed Annual Fee — added at the end
AUM	Current AUM — maintained by GBU

NOTES

Actively managed products show “—”, as no index license applies.
Products without AUM show no estimate. An unset Cap means no ceiling;
an unset Min or Fixed fee counts as zero.

- 1

Pipeline tab — Changes to pipeline products.
- 2

Product DB tab — Changes to listed products, including moves from the Pipeline.
- 3

Office scope — Automatically limited to your office.
- 4

Export CSV — Downloads the filtered log.

REVERTING A CHANGE

Nothing is permanently lost. Every create / edit / delete is recorded field-by-field, and entries for **your office's products** can be reverted directly using the revert button on each row.

KEY TAKEAWAYS

- 1 Register early** Add products to the Pipeline as soon as development starts.
- 2 Start with the essentials** Only Product Name and Target Listing Date are required; complete the rest as information becomes available.
- 3 Attach the required documents** Passive products require the Index Methodology file; the Prospectus is required for all products.
- 4 Move products on listing day** Once the Target Date arrives, transfer the product to the Product Database. It becomes view-only thereafter.
- 5 Update fee terms quarterly** Export, update the four fee columns **in USD (converted at the current exchange rate)**, and import. AUM is managed by GBU.

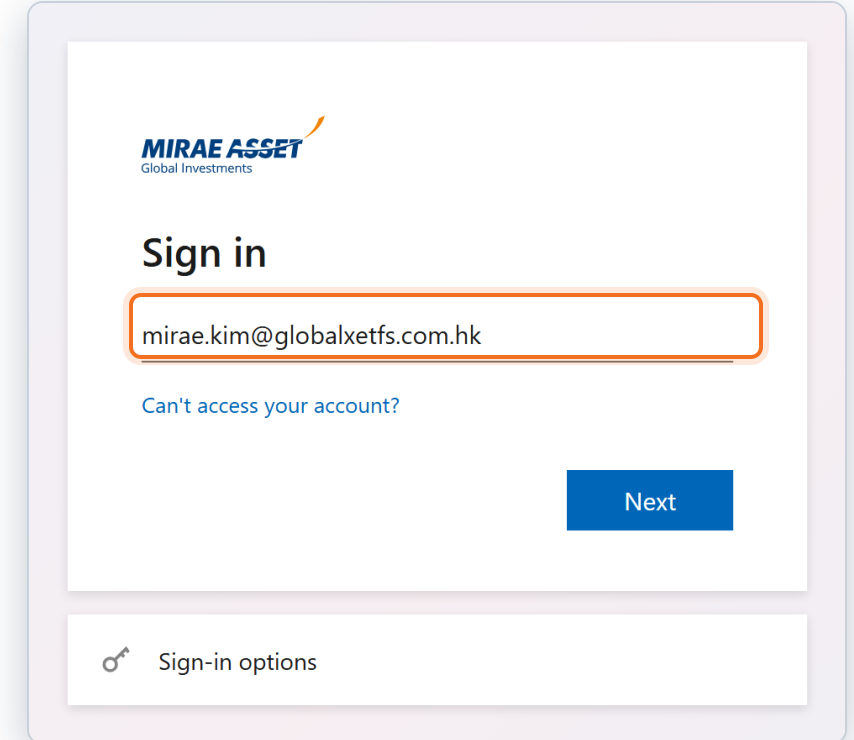

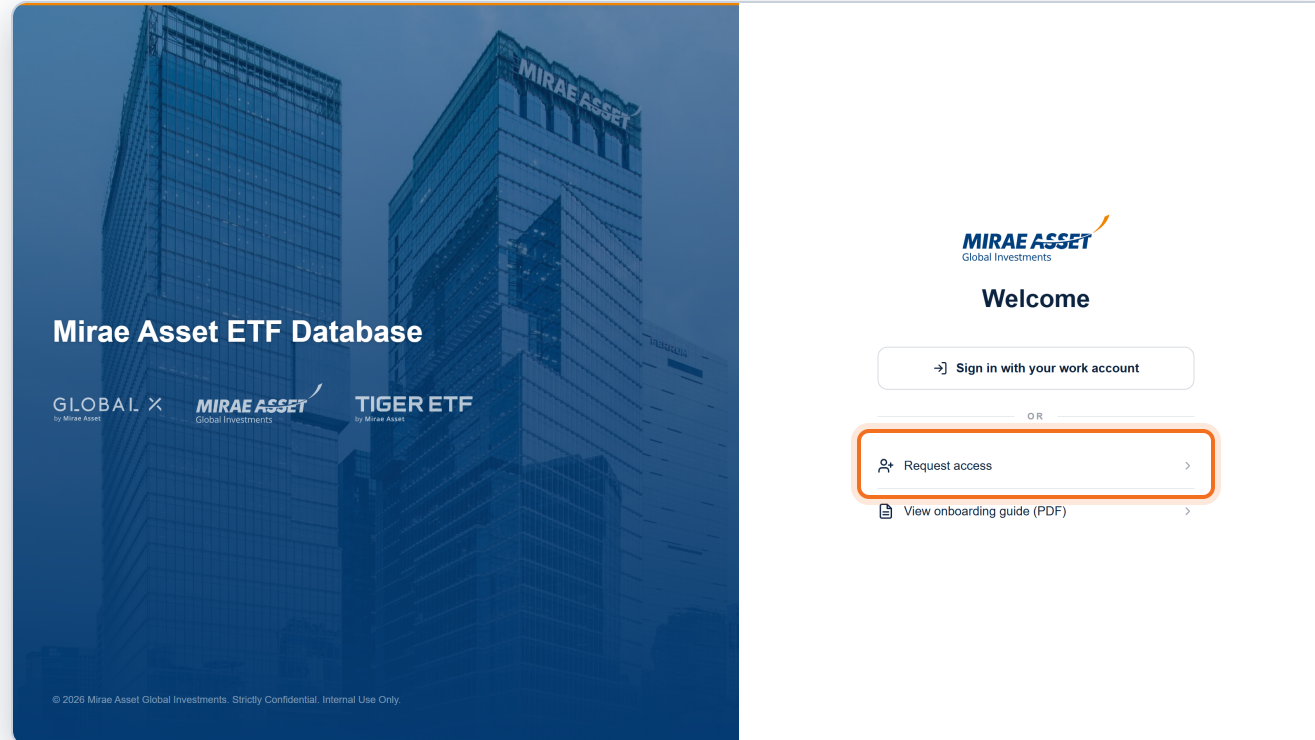

In-app guided tutorials are available — click **Help** on any page.

APPENDIX

First-Time Access

How overseas affiliate users request access and sign in for the first time.

Start your request and enter your email

1 Go to <https://product.miraeasset.com/login> and select **Request access** below the sign-in button.

2 Enter your **work email address** and select **Next**.

Verify your identity with a one-time code

3 Select **“Send a code”** — the third option. No password is required.

4 Check your inbox and enter the **6-digit code** you received.

Begin your access request

5 Select **Yes** to stay signed in on your own device.

6 Confirm **GBU – Product DB** is selected, then **Continue**.

Provide your details and submit

←
Additional questions
X

Business justification *

Global X HK / Mirae Kim

Continue

7 Enter your **office and full name** in the justification field, then **Continue**.

←
Consent form
X

☒ By requesting access, you are sharing your name, email address, and organization name with Mirae Asset Global Investments. If your request is approved, you'll be invited to participate in Mirae Asset Global Investments and your information will be managed in accordance with Mirae Asset Global Investments's privacy policies.

Submit request

8 Accept the consent notice and select **Submit request**.

IMPORTANT — STEP 7 FORMAT

Please enter your details as **Office / Full Name** — for example, **Global X HK / Mirae Kim**. The GBU administrator uses this to identify you and assign the correct office, so please be accurate.

Sign in, then wait to be approved

9 Sign in at <https://product.miraeasset.com/login>. At first you'll see **"Access Approval Pending"** — a **GBU administrator** hasn't approved your account yet.

10 Once GBU approves your account, Microsoft emails you — *"You've received access to GBU – Product DB."*

Sign in again and open the ETF Database

- 11** Return to <https://product.miraeasset.com/login> and select **Sign in with your work account**, using the same email — the ETF Database now opens.

YOU'RE ALL SET

This whole process is one-time. From now on, simply select **Sign in with your work account** to access the ETF Database.

Thank You

For additional inquiries, please contact **Sungjun Min** (sj.min@miraeasset.com) and gbu_etf@miraeasset.com, Global Business Unit.
